Delian Hendardi

Data Scientist

Hello, I'm Delian. I'm a data scientist with specialization in Machine Learning and Data Analyst. Can do data processing based on statistical approach. Seek a new opportunity to become an experienced Data Scientist. Excellent in problem solving, have a good communication, and passionate in learning something new.

Education

Bina Nusantara University
Bachelor Degree of Computer Science - GPA 3.56
2018 - 2022

Skills

Fullstack Web Development
Javascript, PHP, CodeIgniter, React JS, Laravel, Bootstrap, SQL

Data Analyst
Python, Pandas, Matplotlib, Numpy

Machine Learning
Python, Tensorflow, Keras

Problem Solving
Individual Work and Teamwork
Passionate
Communication
Adaptable

Projects

- **Sentiment Analysis About Hate Speech Tweets**
  Final Exam Information Retrieval - 2021
  Analyzing whether hate speech tweets tend to be negative sentiment. Develop BERT machine learning model to support the analysis using Tensorflow framework.

- **News Classification**
  Final Exam Deep Learning - 2021
  Make machine learning model and its evaluation for classifying news category. Machine learning model is created using Recurrent Neural Network (RNN) with Long Short-Term Memory (LSTM) using Tensorflow framework.
